Importance: High

Good Morning Tanya- Linda kept in place most of what we did, which was great. She had some edits (some of which were not accurate regarding restrictions on new uses which I corrected her on and she is fine with). Erik and I just talked over the phone and we are good with this version. Please let us know me if this works or if you have edits.

Linda wants us to send to Susanna (who is sitting in for Alison) to share with Mark and then into Alex's packet for the weekend in advance of the Monday am OCSP management meeting. I am going to have Steve sign off too. Thanks!

-Robert

Got it, thanks. I believe Susanna is covering for Alison so just send to her after NPCD signs off.

Linda- Glad you liked what I did ☺

As discussed, one correction I changed in the attached is that new uses (I know, it's confusing) are NOT covered in this action in the context you used it—only discontinued uses. The prohibition on new uses is under the 1989 partial ban.

Linda – Per discussion, I'm sharing this one with you informally so we can help out on the messaging end. I'd like to get our collective informal feedback back to NPCD by Monday morning so we can run through OGC and the OPPT IO, and then back up to your shop more formally. Sound plan like? If so, could you share your comments with me by COB Friday?

Thanks much,
Alison
